WHO ARE WE

We are an international financial company engaged in investment activities, which are related to retail banking, trading on financial markets and cryptocurrency exchanges performed by qualified professional traders.

Our goal is to provide our investors with a reliable source of high income, while minimizing any possible risks and offering a high-quality service, allowing us to automate and simplify the relations between the investors and the trustees. We work towards increasing your profit margin by profitable investment. We look forward to you being part of our community!

We offer our investors access to high-growth investment opportunities in the Bitcoin markets through the utility of state-of-the-art technical facilities and the implementation of industry standard cryptocurrency trading strategies. We're proud to be an asset management company whose culture is driven by strong values and a long-term vision. At Pelstrod Investment, our vision, mission and core values serve as the catalyst in our relations with our clients, employees, shareholders and in the communities in which we live and work. They are our guiding compass in our business each day.

Strategy matters. Pelstrod's approach to managing investments on behalf of our clients is to combine an in-depth appreciation of their unique circumstances and objectives with the investment capacity of a large-scale institutional investor. That means knowing when to apply traditional strategies and when to deviate to ensure consistent, strong risk-adjusted returns.

WE EMPLOY THREE TRADING STRATEGIES

WE HAVE OUR OPERATIONAL SKILLS UNLIKE OTHER CRYPTOCURRENCY PLATFORMS .

1. We plan a trading strategy.
2. We monitor the market daily and diarize.
3. We analyze each of our trade and on the worst market days, we guarrantee daily returns for our investors by spreading our risks across differerent portfolios.

A TIP OF HOW OUR TRADERS OPERATE

Assuming Pelstrod bought 100 bitcoin at the rate of \$50,000 per one btc. which will be $100 \times \$50,000 = \$5,000,000$ worth BTC in total.

then btc rise by \$100 in 2 minutes. making it to be \$50,100 that means we now made extra 100\$ from every \$50,000. ($\$100 \times 100 = \$10,000$) making it \$5,010,000 in 2 minutes.

The traders do this through the help of a specialised trading bot inclusive with human effort, all professional. The whole traders combined trade more than 1500btc capital daily.

You see they use our BTC to make more btc,

Our 50 professional traders knows best on how to achieve this.
